Equipment Finance

MB Equipment Finance helps keep businesses moving in the right direction.

MB Equipment Finance provides flexible equipment financing solutions, backed by a team of industry experts. Our expertise provides clients and institutional capital markets partners with many advantages, including financing solutions structured to fit your needs, efficient and streamlined processing, straightforward and accurate documentation, and exceptional service. With MB Equipment Finance, you can be confident that we will deliver the terms we propose without any last minute surprises or delays to help you keep your business moving forward.

What we do

- Up to 100% financing for U.S. middle market companies looking to acquire new or used capital equipment or to refinance existing loans, balloons, or EBOs
- Customized leases and loans from \$2 million to \$20 million, with larger transactions considered depending on the deal attributes

Gain the advantages of working with leaders in the equipment financing industry

Leasing professionals with an average of 25 years of experience in delivering strategic financing solutions

Make the most of your business-critical equipment

In today's market, capital equipment leasing and financing can enhance your liquidity, productivity, and competitiveness. Whether you're looking to optimize depreciation, lower your monthly payments, or monetize existing fixed assets, MB Equipment Finance can help you meet your business objectives.

The types of equipment leases and loans we offer

FMV and EBO tax leases

MB Equipment Finance retains ownership and you use the leased equipment in exchange for rental payments. This is best for clients that cannot use depreciation benefits, seek to transfer the risk of equipment obsolescence or only need equipment for a specified period of time. You may have the option of exercising an early buyout option, or, at lease end, you can renew the lease, purchase the equipment or return the equipment.

TRAC leases

Designed to finance licensed, titled motor vehicles used for business purposes (such as over-the-road tractors, trailers, trucks, and buses) with a closed-end purchase option at lease end.

Capital / Synthetic leases

Ideal if you have long-life equipment needs or prefer asset ownership and the associated tax benefits.

Loans

Equipment term loans to support capital equipment acquisitions, refinancing existing debt, EBOs or balloon payments, and balance sheet optimization.

Marine and Port Support

Tug and push boats, barges, dredges, offshore supply vessels, ROVs, gantry cranes, straddle carriers, and stevedoring

Transportation

Trucks, tractors and trailers; intermodal containers

Many benefits to consider

Conserve cash, preserve bank lines of credit

Use equipment leasing as an alternative form of financing for capital equipment. By using this financing solution, you can maximize liquidity and access capital by conserving cash and preserving bank lines for other business needs.

Cash flow

Gain improved cash flow by taking advantage of making monthly payments on the capital equipment you need most. Leasing affords a variety of payment terms to match cash flow needs.

Obsolescence protection

Equipment leasing can also be used to match payment plans to the equipment's expected useful life. At the end of the term, you can choose to take ownership of the equipment or move on to new technology.

Lending parameters at a glance

Terms

Three to eight years preferred

Credit Profile

- S&P B+ or better (or privately held equivalent)
- Annual sales greater than \$75 million
- In business five years or more
